

**Remarks/Arguments:**

Applicants acknowledge with thanks the courtesy extended to their representative by Examiner Callahan during the personal interview of March 8, 2005. During the course of the interview, the rejection of claims 36 through 39 was discussed. Specifically, those claims have been rejected under 35 U.S.C. § 103(a) as being unpatentable over Lentz (5,706,047) in view of Torrey (3,752,961) and Official Notice. Specifically, Applicants' representative understood that the rejection would be withdrawn by amending Applicants' claims to include the feature of "said barcode-like mark and said indicator are in separate locations...". Accordingly, the claims have been so amended.

In view of the amendments set forth above, the above-identified application is in condition for allowance which action is respectfully requested.

Respectfully submitted,

  
Lawrence E. Ashery, Reg. No. 34,515
